## High-Grade Optics, Ultimate Flexibility

Aven's SPZ-50 Stereo Zoom Binocular Microscope on the Standard Articulating Arm with Arbor offers the best-in-class zoom ratio with super sharp 3D images, wide field of view, and long working distance. Magnification range of 6.7x-50x with the included 10x eyepieces, and additional lenses and eye pieces can increase the range up to 200x. Unibody construction and multi-coated optical components assure excellent contrast and definition of 3D images from edge-to-edge. The Articulating Arm with Arbor provides limitless positioning options and is compact enough to easily move out of the way when not in use. This maximum flexibility system is ideal for covering a large working area. The Tiltable Arbor extends the working range of the Articulating Arm Stand.
